B.Sc. Computer Technology Graduate

PROFESSIONAL SUMMARY

Computer Technology graduate from Jomo Kenyatta University of Agriculture and Technology (JKUAT) with practical experience spanning software engineering, data management, artificial intelligence, robotics, Android development, web technologies and administrative operations.

Experienced in developing digital solutions, collaborating within multidisciplinary teams and supporting organisational processes through technology and data-driven decision-making.

Passionate about building impactful systems, continuously learning emerging technologies and contributing to initiatives that improve communities through innovation.

CORE COMPETENCIES

Programming

- Python
- JavaScript
- TypeScript
- Kotlin
- SQL
- HTML5 & CSS3

Software Development

- React & Vue
- Git & Software Testing
- Android Development
- UI/UX Design
- REST APIs
- Web Development

Artificial Intelligence

- Grounded Generative AI
- Robotics
- Prompt Engineering
- Human-Robot Interaction
- AI Integration

Data

- Power BI
- Excel
- Reporting
- Data Cleaning
- Data Analysis
- Data Management

Professional

- Leadership
 - Communication
 - Problem Solving
 - Team Collaboration
 - Critical Thinking
 - Research & Documentation
-

TECHNICAL TOOLS

- Power BI
 - Android Studio
 - Postman
 - Microsoft Excel
 - VS Code
 - Figma
 - Word
 - Git & GitHub
 - PowerPoint
-

EDUCATION

- **Bachelor of Science in Computer Technology:** JKUAT | 2022 to 2026.
 - **Kenya Certificate of Secondary Education:** Kisii High School | 2018 to 2022.
 - **Kenya Certificate of Primary Education:** Shitoto Primary School.
-

WORK EXPERIENCE

Administrative Assistant (Part-Time) | Zydus Lifesciences Ltd, Kenya | Feb 2024 – Nov 2025

- Managed organisational records and maintained operational data with accuracy.
- Assisted in preparing reports and documentation for daily operations.
- Maintained confidential company information while ensuring compliance with administrative procedures.
- Improved efficiency through organised documentation and digital record management.
- Collaborated with multiple departments to support business operations.

Administrative Assistant Attaché | Zydus Lifesciences Ltd, Kenya | External Attachment 2025

- Analysed administrative requirements and supported organisational reporting.
- Designed and developed ZYSA, an Android-based employee performance evaluation system.
- Worked with users to gather requirements and improve reporting workflows.
- Organised operational datasets for improved accessibility.

Web Developer | AFRAKEN / JHUB Africa | Mar 2024 – Aug 2024

- Collaborated with JHUB Africa to design and develop the official website for AFRAKEN.
- Contributed to coding, debugging and testing processes using web development technologies and tools.

PROJECTS

SENTRY | Grounded Generative AI System | Academic Project

- Built a grounded Generative AI application integrated with the Pepper Robot.
- Improved contextual responses by connecting AI outputs with verified knowledge.
- Participated in AI and robotics research within the JKUAT Social Robotics Lab.

AFRAKEN Website | Wordpress Project

- Collaborated with JHUB Africa to build the official AFRAKEN website.
- Participated in development, testing, debugging and deployment.

ZYSA | Employee Performance Evaluation Platform

- Android & Kotlin
- Employee Evaluation
- Data Collection

SEIA | Social discovery platform connecting users through travel, adventure, shared experiences and community engagement.

Noctuary | A web platform dedicated to publishing poetry and literary work while exploring modern web technologies.
